

## International Olympiad Foundation (IOF)

International Olympiad Foundation, is a non-profitable organization with its head office at New Delhi. It is conducting exams to promote science, mathematics, general knowledge, introductory computer education and English language skills, Economics, Entrepreneurship, Accountancy, Indian and Western Music among school children. Olympiad exams are conducted at a very large scale for students from class 1 to 12.

The impact of these exams is national wide and every year thousands of students appear in it. Olympiad exam has true value and it is highly appreciated by the parents. As this exam on one hand help to improve the overall performance of students and on other hand it allow parents, children's and teachers to again rethink and revise their methods of teaching for best outcomes and holistic development of students.

IOF is organizing twelve Olympiad test each year all over the India in thousands of schools. This exam is highly challenging as it improves aptitude and competitive spirit among students.

Here are a few perspectives of IOF exams. :

1. Provides a big platform
2. Future talent pool
3. Build confidence in the student
4. Improvement in class results
5. Gain additional knowledge
6. Improves reasoning ability

Above all, participating in Olympiad exams and representing one's state or country at national and international level gives the satisfaction and pleasure to the students which itself is the best reward for them.
